

IYT Prices / Renewals and Replacements

Dear IYT student,

Please find attached the prices for IYT certificate renewal and/or replacements.

- renewal certificates, also referred to as revalidation certificate
- replacement certificates, also referred to as duplicate certificate

After 5 years your IYT certificate will need to be renewed/revalidated. IYT asks this for many reasons, but to name a few:

- 1) Students regularly change their contact details. Renewal ensures we have the capability of communicating with you.
- 2) If a new security feature has been added to our cards, you are sure to have the most up to date type of certificate.
- 3) If a student passes away, we can remove from our database in order to avoid embarrassing communication with your parents/ widow/widower.
- 4) If you have lost or had your card stolen and someone else is using it, we can notify you, reissue a new one and cancel the one lost or stolen.
- 5) If there is a change in the regulations, we can notify you that an update may be required to revalidate. This recently happened with STCW refresher training and with VHF- SRC training.
- 6) If you have caused an accident or injury at sea, we reserve the right not to renew your certificate if you were at fault.
- 7) If a court has legally stripped a certificate we will be notified not to renew.

All of the above have happened in the past and we are following “best practices” as laid down by the MCA for revalidation of professional MCA Masters of Yachts certificates and to satisfy our ISO 9011;2008 procedures. All drivers’ licenses, pilots licenses & Master of Yachts certificates have a 5 year expiry date.

We would also like to express that IYT has worked very hard over the past 20 years to become the most internationally recognised marine certification authority in the world by obtaining government approvals and recognitions. Maintaining our approvals and recognitions requires annual audits for ISO 9001: 2008 Quality Management System and 5 year audits by the MCA and other governments upon their request. These approvals set us apart from our competitors.

This year, May 2017, we celebrate 20 years of MCA Approval for our professional Master of Yachts courses! The database and certification system we have created and continue to improve also brings added value of convenience and secure record keeping for you, our schools and IYT.

We ask that you take into consideration that renewal certificates are valid for 5 years, and considering the value of IYT accreditation over a 5-year period, the annual costs are very low.

Please find the price list [here](#) in pdf format. Please note that prices are in international USD currency. You will also find the price list here on our website, <https://www.iytworld.com/certificate-renewal-replacement/>

You are now able to log in to your secure profile and order your renewal or replacement certificate without need of consulting/requesting the school to do on your behalf. However, those students in the previous system may have issues with our “legacy upload” of certificates which we must and will resolve on a case by case basis. If you do not see a certificate in your profile that you have obtained through one of our partner schools please contact us at support@iytworld.com. We will resolve the issue and add the required certificate to your profile so you may continue with the online revalidation or duplicate order process. Please follow the instructions on the link to our site page above and we will do our best to make the process as seamless as possible.

Please see the price list for renewal and replacement certificates on the following page.

Thank you for your cooperation and thank you for choosing IYT as your certification provider!

Sincerely,

A handwritten signature in blue ink that reads "Mark Fry". The signature is stylized with a large, looping "F" and a long, sweeping underline.

Mark Fry
